## ***We invite you to experience exceptional shade.***

Frankford has been in the shade business for more than 120 years, providing superior quality umbrellas to the contract and retail industries. We are a dynamic and thriving company in the outdoor living industry, specializing in modern and traditional shade solution designs. Known primarily for providing hotels, resorts, and restaurant chains with durable and long-lasting umbrellas, Frankford Umbrellas have become a staple in not only thousands of commercial settings throughout Canada, the United States, Mexico and the Caribbean but also countless residential settings.

The beauty, design, and superior elements of our umbrellas allow you to bring home the enhanced resort and dining experience, to your cherished outdoor living space. We use only the highest quality materials in manufacturing our umbrellas, and they truly are the best in the industry. We believe in providing our partners an exceptional product, at a reasonable price, with superior customer service.

Precisely crafted, our umbrellas are built to withstand the harshest conditions. Our procedures and inventory systems constantly evolve to ensure we meet all the expectations of our clients. Our ultimate goal is to exceed your expectations. This goal has generated thousands of long-lasting relationships with commercial and residential clients alike. So, while it is typically years before our customers need to return, they always do.

Whether you're a country club, resort and spa, or a family that enjoys your outdoor space as much as your indoor space, once you've experienced our umbrellas, and more importantly our personal commitment to satisfying the needs of our customers, we are confident you will become a customer for life. Find your perfect umbrella through one of our valued dealers or at a retail store near you.

We invite you  
to experience  
exceptional shade.

# WIND RATINGS

Wind ratings do NOT form any part of, nor fall under, any of Frankford Umbrellas' warranties. Wind ratings are intended as a guide to the relative strength of the umbrellas only and tested at their optimal positions. Umbrellas with any degree of tilt should not follow the below ratings. Wind can be extremely variable, depending on the surroundings, elevation, gusts, etc.

In any high wind or sudden extreme weather conditions, all umbrellas should be closed and secured immediately, regardless of size, weight, or base weight and never be left unattended in the open position. This will reduce the risk of damage to your umbrella, furniture, and property.

Frankford Umbrellas have been tested successfully in extreme weather and winds up to 40-50 mph. However, we strongly recommend closing your umbrella when not in use or when sustained winds exceed 25 mph.

If using our umbrellas on a rooftop or an elevated patio above the ground level of the property, published wind ratings do not apply. We strongly recommend increasing minimum suggested base weights by double or triple.

Our umbrellas, in the opened or closed position, when using a surface base, should be closed and stored when not in use. This is to ensure that high winds do not cause the umbrella to fall over and cause injury or property damage. Failure to take these precautions will void all manufacturer warranties.

Frankford can recommend specific bases and anchoring systems for specific umbrellas (pg. 46). However, these are only recommended weights as different environments may require different base options. Umbrellas must be secured to a sufficiently weighted umbrella base.

Please contact us for assistance in choosing the proper umbrella base or anchoring system. In the event Frankford shade products are left open and/or unattended in harsh weather conditions, our customer service department is here to help you and promptly assist with parts for repairs. Our shade products offer modular, self-repairable components which allow customers to service the umbrellas to keep them in perfect working condition.

## DESIGNER **ALUMINUM** CANTILEVER UMBRELLAS

This umbrella combines style with size, strength, and durability to provide a lasting solution to your shade needs. Its 360° rotation and Infinity Tilt allow for easy opening and closing while providing complete shade flexibility. Heavy-gauge extruded aluminum and stainless steel parts on a marine-grade, corrosion-resistant aluminum frame ensure the Eclipse<sup>®</sup> is ideal for both commercial and residential environments.

### **OCTAGON**

Mounting: **NGU-DP** - Nova Specific Surface Deck Plate

8110NGU-SQ-MS-R176

# NOVA

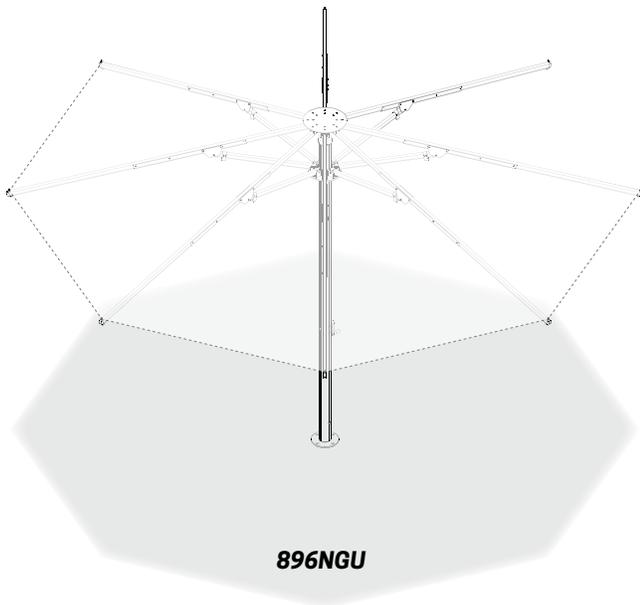

## GIANT **ALUMINUM** TELESCOPING MARKET UMBRELLAS

The Nova offers maximum shade and weather protection for commercial and residential environments. Its 9 oz. marine-grade acrylic canopy is supported by reinforced extruded aluminum ribs that connect to a 4-inch mast. The commercial-grade telescoping mechanism allows for effortless opening and closing of the umbrellas without having to move any furniture underneath.

The Nova is one of the only large shade structures in the industry with semi-permanent and non-permanent mounts available. This umbrella not only looks spectacular, but is a practical shade solution in a number of applications.

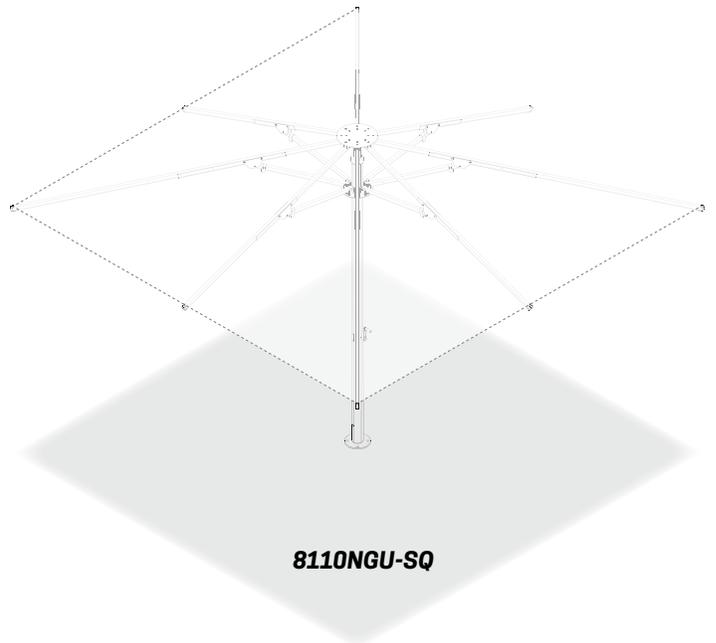

### OCTAGON

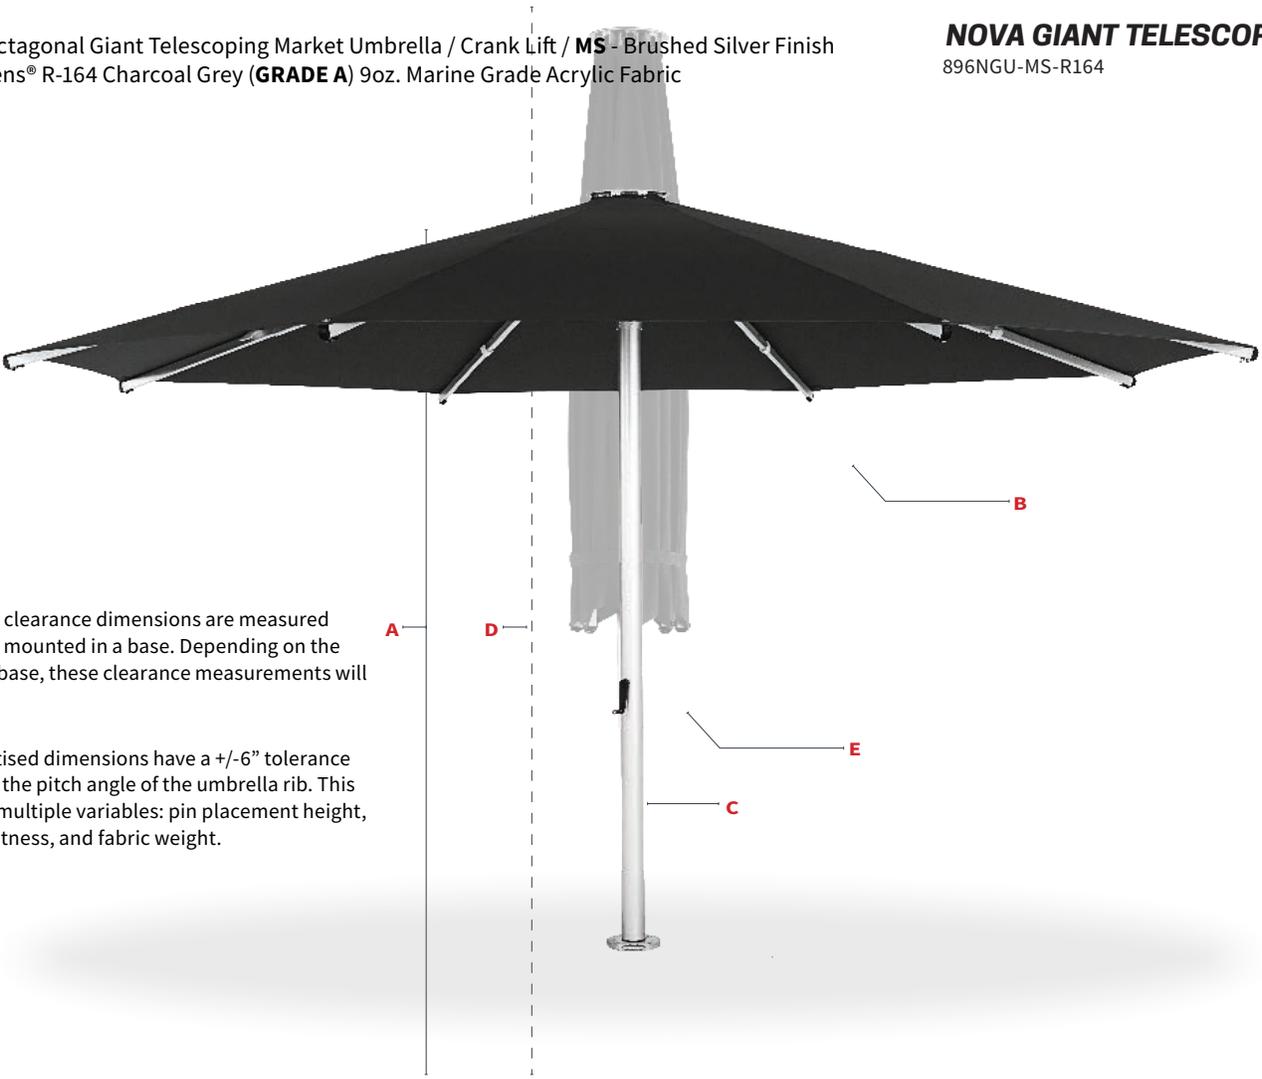

16ft./5m

### SQUARE

13ft. x 13ft./4m

Umbrella clearance dimensions are measured while not mounted in a base. Depending on the selected base, these clearance measurements will change.

All advertised dimensions have a +/-6" tolerance based on the pitch angle of the umbrella rib. This is due to multiple variables: pin placement height, crank tautness, and fabric weight.

- As the telescoping Nova cranks down, the top portion of the mast rises, allowing you to completely close the umbrella without having to move any furniture.
- 4" diameter aluminum center pole with four internal strength channels, combined with the extruded aluminum ribs provide exceptional support and strength.
- Stainless steel hardware throughout.
- Reinforced grommets with an ultra-durable woven nylon wrap prevent fabric tearing from the frame.
- The Nova mounts to a hinged spigot allowing for the umbrella mast to be raised from a horizontal position.
- Mounting options include permanent, semi-permanent, and free-standing bases for installation on any surface.
- **Engineered to withstand 50 mph sustained winds.**

## The Recacril Solution Dying Process

FIBER

Color pigments are applied to the polymer before the fiber is extruded. Therefore, the color is intrinsic; it is in the core of the fiber.

YARN

During the warping and spinning process, the fiber is transformed into Recacril® yarn that is fully dyed. The color does not just remain on the surface, but it is consistent right from the heart of the yarn.

FABRIC

As a result, Recasens' 100% solution-dyed acrylic fabrics have exceptional color retention as well as excellent technical properties and UV and weather resistance.

Solid fabrics have been tested independently in certified labs and found that all colors have a UPF rating of 50+, and most colors have a shade factor of at least 98%.

## Technical Specifications

### Characteristics

Weight	9 oz. +/- 5%
Finish	Fluorocarbon / Resin
Styles	81 solids / 73 stripes

100% Solution-Dyed Acrylic Fibers

### Specifications

	Test Results	Test Method
UV Resistance	1,500 + hours	AATCC-16
Abrasion Rating	40,000 rubs	ASTM-4157
Hydrostatic	40cm	AATCC-127 Method B
Puncture Strength	38 lbs.	ASTM-751

	Warp/Weft	
Tear Strength	11.5 lbs. / 7.7 lbs.	ASTM D-2261
Tensile Strength	287 lbs. / 149 lbs.	ASTM D-5034 Grab
Shrinkage	0.10% / 0%	Method 5804
Stretch	0% / 0%	ASTM D-2594

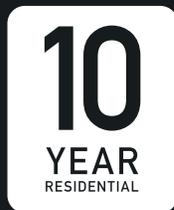

## GRADES A / A+

The Recacril® and RECsystem® canvases are treated with a special technological process to ensure the lasting quality of the fabric. In this process, nanoparticles completely cover the surface of the fibers in the fabric, forming a permanent coat. After treatment, both the surface and the inside of the fabric are permanently protected against dirt buildup and adverse effects of a wide variety of atmospheric agents. The Infinity treatment's low reactivity and high stability endow long-term protection to the fabric, especially against mildew, and provide excellent water and oil repellency.

Frankford uses only the best. Coats Dabond is a bonded, 250D x 3 ply twisted continuous filament polyester thread that offers excellent protection against UV light and abrasion. It is specifically designed to withstand demanding weather conditions. Dabond is the only environmentally friendly bonded polyester thread available on the market and is excellent at resisting mildew, rot, and the effects of bleaching.

- Tighter weave
- Superior stability
- Unsurpassed fade resistance
- Proprietary Infinity finishing Process
- Long-lasting water resistance
- Stain resistance

**Stripes in all fabric grades cannot be used on rectangular canopies.**

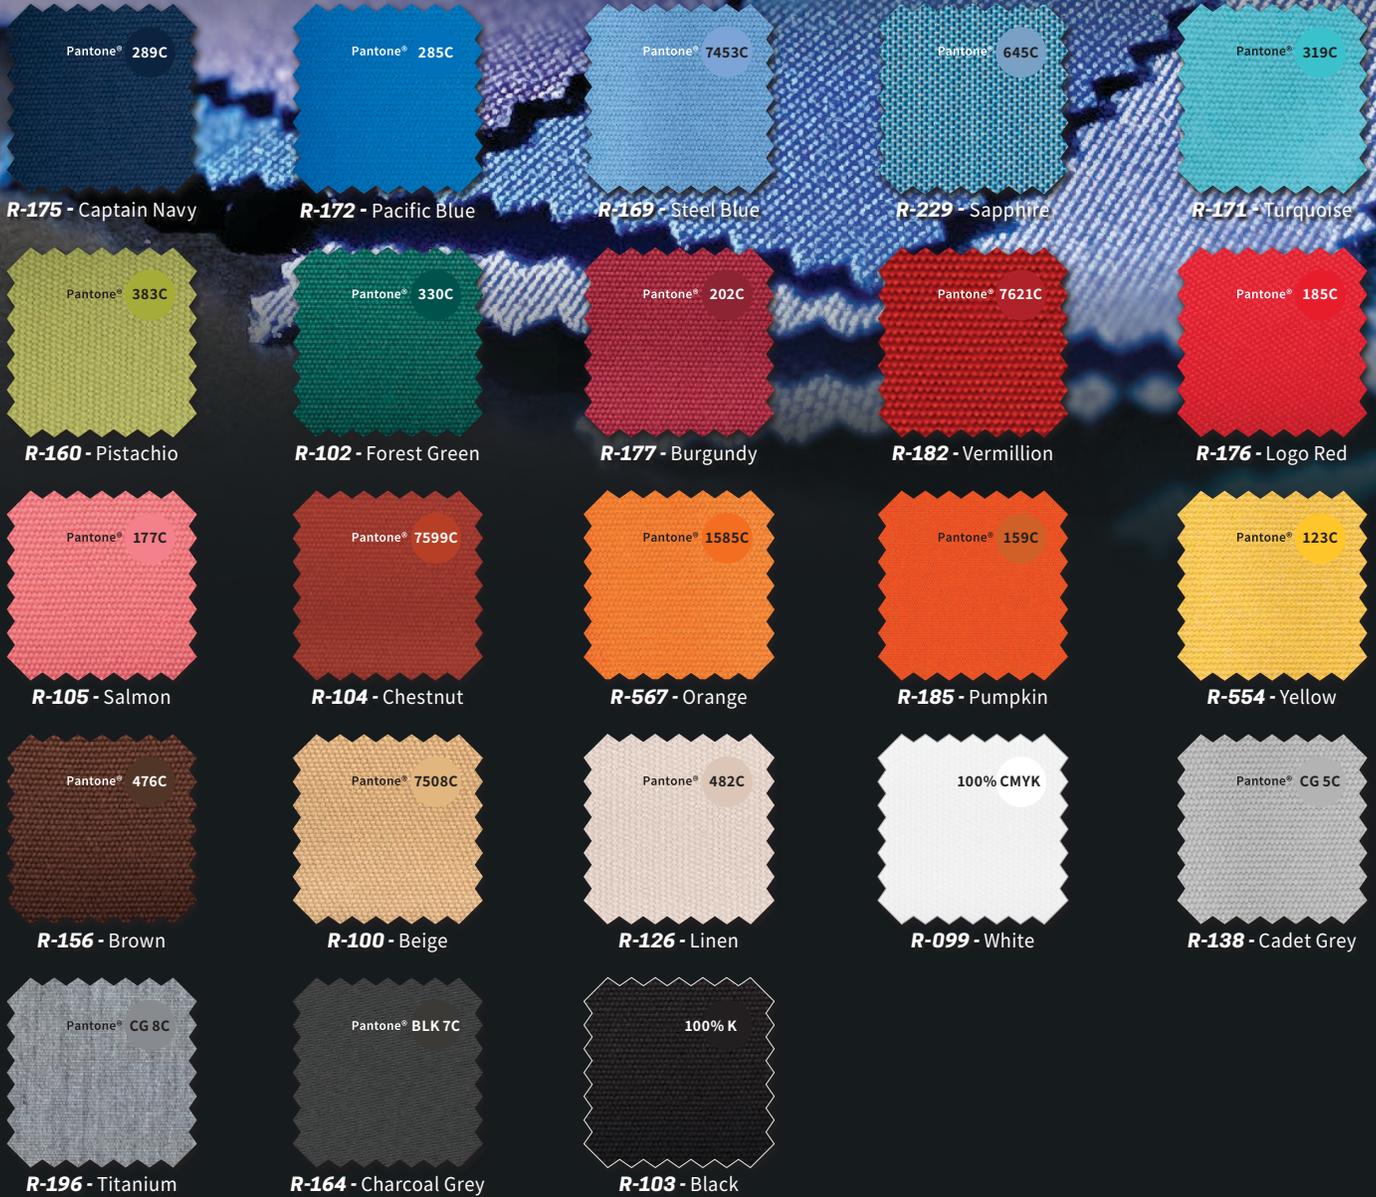

Frankford Umbrellas stands behind our marine-grade fabrics with our industry-leading commercial and residential warranties.

For full fabric offering, care and cleaning recommendations, and further warranty information, visit [frankfordumbrellas.com](http://frankfordumbrellas.com)

### EXCLUSIVE U.S. FABRICS

For a full offering of fabrics, please visit [frankfordumbrellas.com](http://frankfordumbrellas.com)

Stripe fabrics can only be sewn horizontally. Stripe fabrics cannot be sewn vertically or used on rectangular canopies.

**Stripe Repeat Pattern - 6.4"/16.5cm**

Pantone® color matches displayed are only suggestions. These are not a 1:1 color match to the fabric and are meant as a tool to help aid in design. Please call to request physical fabric swatches if necessary.

Colors may vary while viewing digitally across different monitors, phone screens, print, etc.

Stripe fabrics can only be sewn horizontally. Stripe fabrics cannot be sewn vertically or used on rectangular canopies.

Geometric, Floral, Paisley, Novelty, Plaids, Animal Print, Chevrons, or Abstract patterns cannot be sewn in a continuous repeat. A new repeat will begin on each adjacent panel.

All stripe patterns in GRADE A+ can be ordered as single pieces. If fabrics are not found, please call for quotation.

# UMBRELLA BASE GUIDE

## Recommendations by Application and Umbrella

**TABLE USE**  
 Suitable for use beneath a table. It is not recommended as a free-standing base option.

**FREE-STANDING USE**  
 Recommended as a free-standing option, but can also be suitable for use beneath a table if the table provides enough clearance.

**1.5" STEM (8ST / 18ST)**  
 Indicates the base can accommodate an 1.5"/38mm center pole.

**2" STEM (18ST-2)**  
 Indicates the base can accommodate a 2"/50mm center pole.

- 17.25" L x 1.5" W x .5" H
- DC5V/3W/**4400mAh** Lithium Battery (28hrs at low power / 12hrs Full Power)

## BASES / MOUNTS

### Guide to shade anchoring solutions

Properly securing your umbrella is crucial to ensuring years of sun protection and longevity. The following section will guide you through our wide variety of everyday bases and anchoring solutions. These included options are suitable for use beneath a table or in a free-standing setting.

### **Remember, Your Shade Is Only As Good As Its Foundation**

Frankford umbrellas are all thoroughly tested and built to ensure durability and longevity; however, we do not recommend the use of any non-permanent umbrella in unsafe wind conditions. The size and installation location of your umbrella play a significant role when selecting the base/anchoring method required for safe operation. Please consult an authorized Frankford Dealer or factory representative directly for recommendations.

Umbrellas must be secured in a base equal to or greater than the options recommended in this catalog and must be secured properly using the thumb screws or other hardware supplied with each base. Failure to properly secure umbrellas with the base options recommended, and with the supplied hardware will void the Frankford Umbrellas warranty. Furthermore, all umbrellas should always be closed and secured when not in use and taken down when winds reach unsafe conditions.

Bases have a +/- 10 lbs. (4.5 kg.) tolerance based on a variety of variables. Dimensions +/- 1-2".

## RESIN COATED CONCRETE

### 50C Resin Table Base

- Weight: **50lbs.**/22 kg.
- Dimensions: **16"**/40cm • **6"**/15cm

- 18ST-2: **18"**/45cm • **2"**/5cm

Aluminum, concrete-filled shell with rear hooded wheels. Must be paired with a stem.

Aluminum, concrete-filled shell with rear hooded wheels. Must be paired with a stem.

Stainless steel stems are not available in any finish other than Polished Stainless Steel.

## STEEL PLATE

### 50S Steel Plate Base

- Weight: **50lbs.**/22 kg.
- Dimensions: **20"**/50cm • **11"**/28cm
- **1.5"**/3.8cm Diameter Stem
- Table Use

### 75S Steel Plate Wheel Base

- Weight: **75 lbs.**/34 kg.
- Dimensions: **24"**/61cm • **16.5"**/42cm
- **1.5"** / 3.8cm Diameter Stem
- Free-Standing

Bases have a +/- 10 lbs. (4.5 kg.) tolerance based on a variety of variables. Dimensions +/- 1-2".

## GALVANIZED STEEL PLATE BASES

### 24G Round Galvanized Steel Plate

- Weight: **70 lbs./32 kg.**
- Dimensions: **24"/60cm** • **.5"/12.7mm**
- Table Use

Can be stacked up to three (3) plates. Must be paired with a stem.

### 30G Round Galvanized Steel Plate

- Weight: **100 lbs./45 kg.**
- Dimensions: **30"/76cm** • **.5"/12.7mm**
- Free-Standing or Table Use

Can be stacked up to three (3) plates. Must be paired with a stem.

### 36G Round Galvanized Steel Plate

- Weight: **150 lbs./68 kg.**
- Dimensions: **36"/91cm** • **.5"/12.7mm**
- Free-Standing Use

Can be stacked up to three (3) plates. Must be paired with a stem.

### 40G Round Galvanized Steel Plate

- Weight: **185 lbs./83 kg.**
- Dimensions: **40"/101cm** • **.5"/12.7mm**
- Free-Standing Use

Can be stacked up to three (3) plates. Must be paired with a stem.

### 20G-SQ Galvanized Steel Base

- Weight: **70 lbs./32 kg.**
- Dimensions: **20"/50cm** • **.5"/12.7mm**
- Table Use

Cannot be stacked.  
Must be paired with a stem.

### 24G-SQ Galvanized Steel Base

- Weight: **100 lbs./45 kg.**
- Dimensions: **24"/60cm** • **.5"/12.7mm**
- Free-Standing or Table Use

Cannot be stacked.  
Must be paired with a stem.

### 36G-SQ Galvanized Steel Base

- Weight: **200 lbs./90 kg.**
- Dimensions: **36"/91cm** • **.5"/12.7mm**
- Free-Standing Use

Can be stacked up to three (3) plates. Must be paired with a stem.

### 36G-SQ+W Galvanized Steel Base

- Weight: **214 lbs./97 kg.**
- Dimensions: **36"/91cm** • **5"/12.7cm**
- Free-Standing Use **+/W**

Can be stacked up to three (3) plates. Must be paired with a stem.

### 8ST/18ST/18ST-2 Stems

- 8ST: **8"/20cm** • **1.5"/3.8cm**
- 18ST: **18"/45cm** • **1.5"/3.8cm**
- 18ST-2: **18"/45cm** • **2"/5cm**

Stainless steel stems are not available in any finish other than Polished Stainless Steel.

Bases have a +/- 10 lbs. (4.5 kg.) tolerance based on a variety of variables. Dimensions +/- 1-2".

## SPECIALTY MOUNTING

### Direct Surface and In-Ground Mounting Options For Center Post Umbrellas

Frankford's umbrellas are all thoroughly tested and built to ensure durability and longevity; however, we do not recommend the use of any non-permanent umbrella in unsafe wind conditions. The size and installation location of your umbrella play a significant role when selecting the base/anchoring method required for safe operation. Please consult an authorized Frankford dealer or factory representative directly for recommendations.

Frankford Umbrellas' warranty is only applicable to products that are properly secured to an appropriately weighted base, installed in-ground or surface mount. The warranty does not cover damage caused to an umbrella structure or base as a result of improper anchoring or severe acts of nature, including any damage caused by contact with a foreign object (this includes contact with the ground).

Umbrellas must be secured in a base equal to or greater than the options recommended in this catalog and must be secured properly using the thumb-screws or other hardware supplied with each base. Failure to properly secure umbrellas with the base options recommended, and with the supplied hardware, will void the Frankford Umbrellas warranty. Furthermore, all umbrellas should always be closed and secured when not in use, and taken down when winds reach unsafe conditions.

Bases have a +/- 10 lbs. (4.5 kg.) tolerance based on a variety of variables. Dimensions +/- 1-2".

## SPECIALTY MOUNTING

### 8ST/18ST/18ST-2 Stems

- 8ST: 8"/20cm • 1.5"/3.8cm
- 18ST: 18"/45cm • 1.5"/3.8cm
- 18ST-2: 18"/45cm • 2"/5cm

Stainless steel stems are not available in any finish other than Polished Stainless Steel.

SM

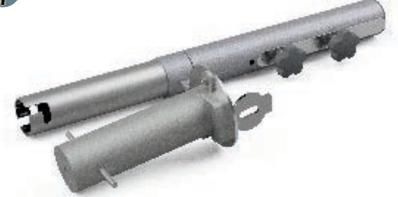

### CMLK Surface Mounting Stem

- Weight: 9 lbs./4 kg.
- Dimensions: 18"/45cm • 4"/10cm
- 1.5"/3.8cm Diameter Stem
- Free-Standing Surface Mount
- SS Upgrade Available **CMLK-SS** ✦

Surface mounting plate installation with attachable 18" Stem. Installation hardware not included.

SM

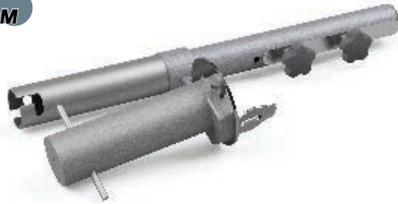

### BZ-SM In-Ground Mounting Stem

- Weight: 11 lbs./5 kg.
- Stem: 16"/40cm • 1.5"/3.8cm
- In-Ground: 8.5"/21cm
- Free-Standing In-Ground Use

in-ground sleeve installation with removable stem.

SM

### BZ2-SM In-Ground Mounting Stem

- Weight: 11 lbs./5 kg.
- Stem: 16"/40cm • 2"/5cm
- In-Ground: 8.5"/21cm

in-ground sleeve installation with removable stem.

MS

### 38SAP Soft Surface Anchor

- Weight: 4 lbs./1.8 kg.
- Dimensions: 27"/68cm
- 1.5"/3.8cm Diameter Umbrella

1.5" Aluminum sand anchor sleeve. Can be used with all 1.5" diameter aluminum and wooden bottom poles.

Customer must drill a hole to accommodate hitch pin.

MS

### 38SAP-2 Soft Surface Anchor

- Weight: 4 lbs./1.8 kg.
- Dimensions: 38"/96cm
- 2"/5cm Diameter Umbrella

2" Aluminum sand anchor sleeve. Only to be used with all G-Series Greenwich and Monterey.

Customer must drill a hole to accommodate hitch pin.

Bases have a +/- 10 lbs. (4.5 kg.) tolerance based on a variety of variables. Dimensions +/- 1-2".

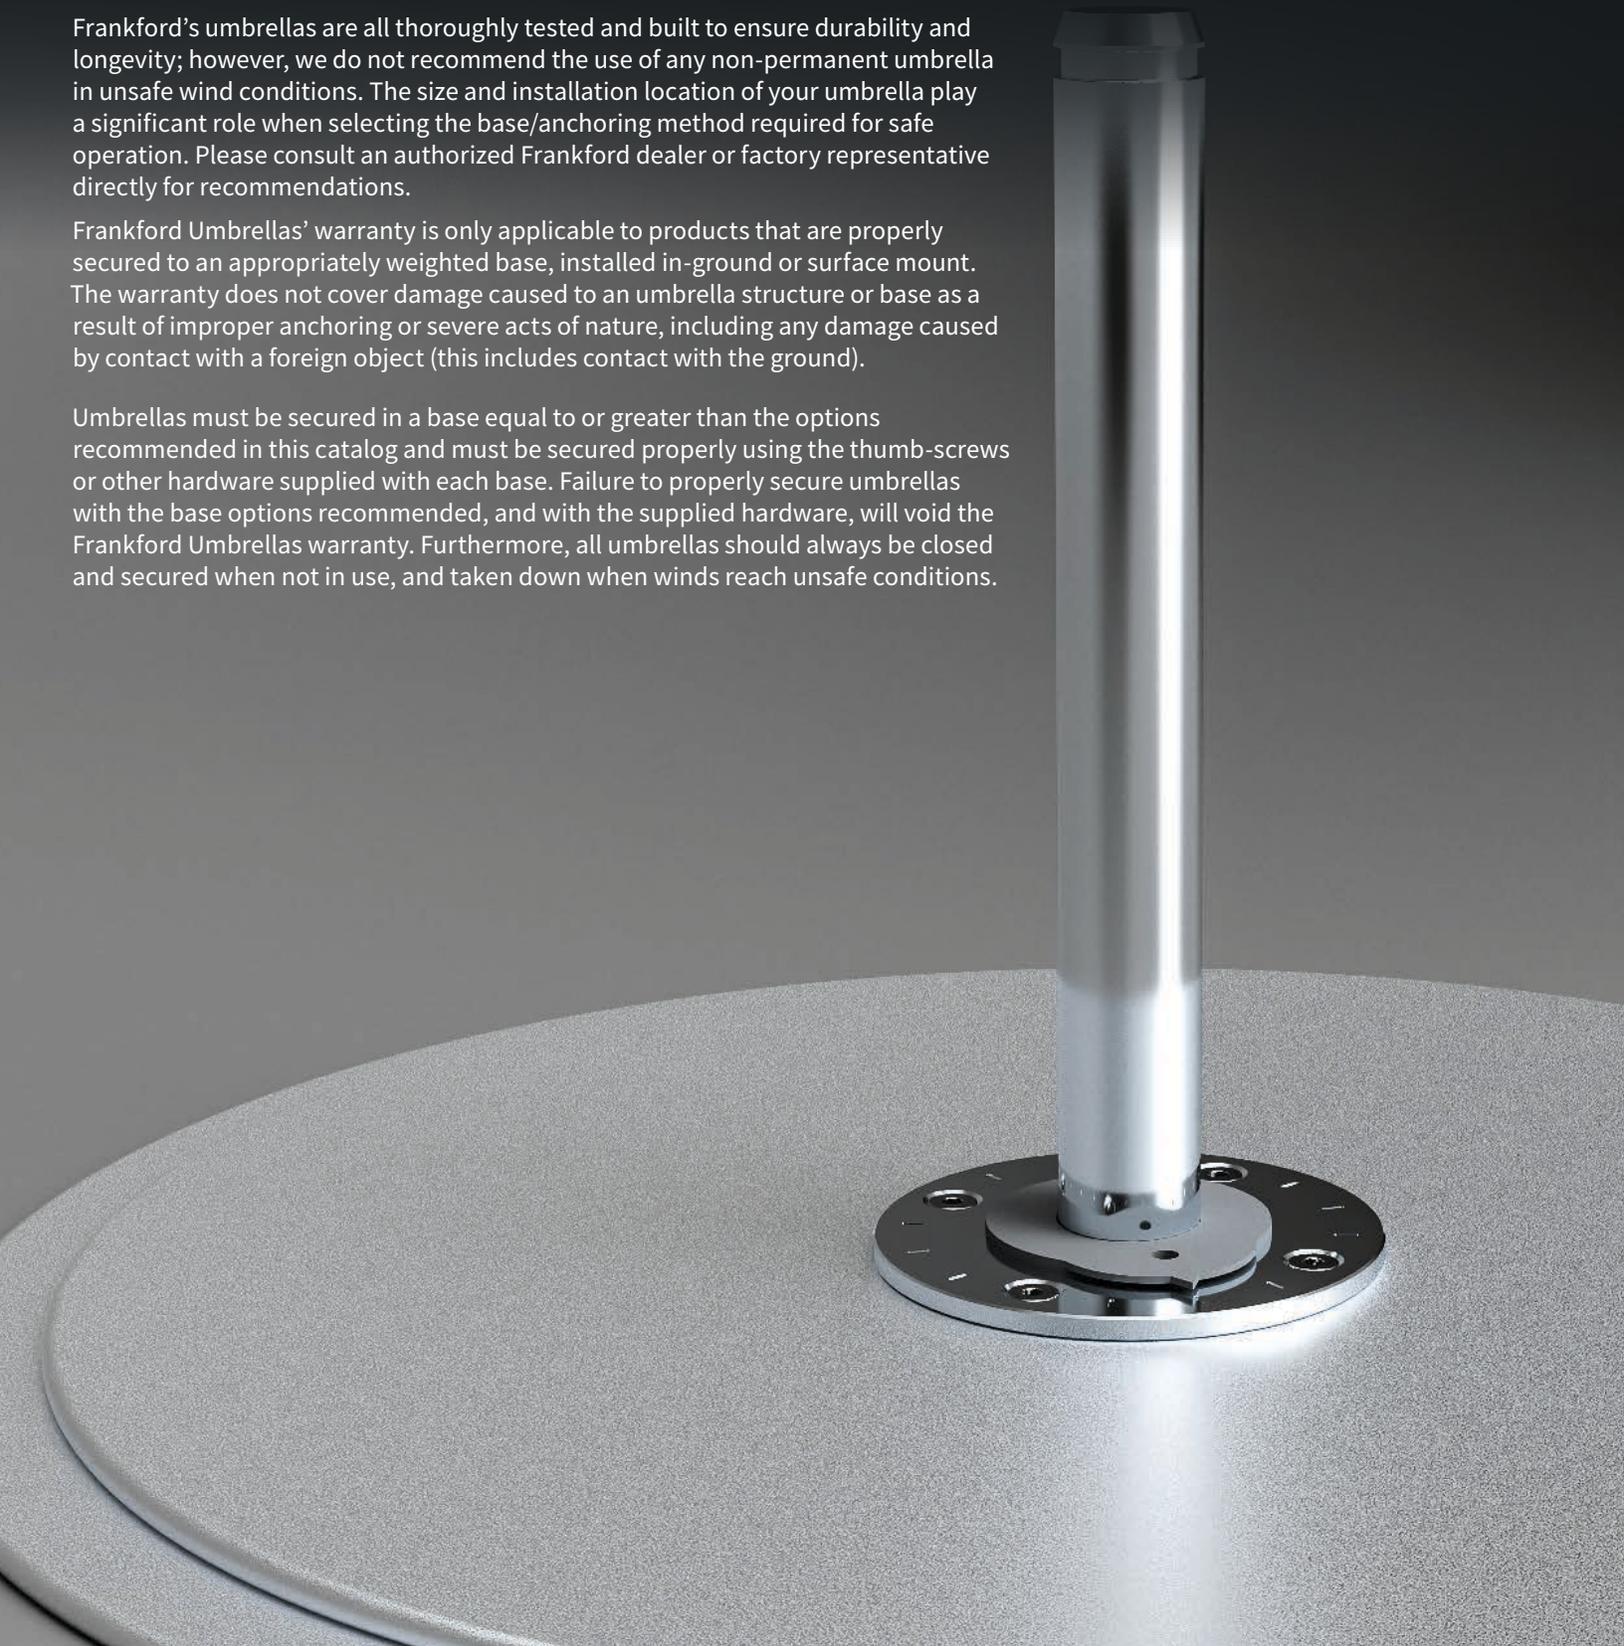

## SPECIFIC MOUNTING

ECLIPSE® / AURORA / NOVA / G-SERIES

Frankford's umbrellas are all thoroughly tested and built to ensure durability and longevity; however, we do not recommend the use of any non-permanent umbrella in unsafe wind conditions. The size and installation location of your umbrella play a significant role when selecting the base/anchoring method required for safe operation. Please consult an authorized Frankford dealer or factory representative directly for recommendations.

Frankford Umbrellas' warranty is only applicable to products that are properly secured to an appropriately weighted base, installed in-ground or surface mount. The warranty does not cover damage caused to an umbrella structure or base as a result of improper anchoring or severe acts of nature, including any damage caused by contact with a foreign object (this includes contact with the ground).

Umbrellas must be secured in a base equal to or greater than the options recommended in this catalog and must be secured properly using the thumb-screws or other hardware supplied with each base. Failure to properly secure umbrellas with the base options recommended, and with the supplied hardware, will void the Frankford Umbrellas warranty. Furthermore, all umbrellas should always be closed and secured when not in use, and taken down when winds reach unsafe conditions.

We recommend to consult a licensed professional before installing all in-ground and direct surface installations.

# RESIDENTIAL WARRANTIES

As a condition of doing business with Frankford Umbrellas, all persons involved in the commercial purchase, sale, or resale of Frankford products shall be bound by the following terms and conditions.

**DISTRIBUTION** - Frankford reserves the right to respond to geographic and individual market and competitive situations by applying different policies to its various Dealers. Frankford also reserves the right to rescind or modify, in its sole and absolute discretion, any existing or future sales program or policy, or credit terms (if any) extended to a Dealer. In addition, Frankford may terminate any authorized Dealer, for any reason or no reason, in its sole and absolute discretion and without notice.

**ERRORS** - There may be errors in the prices, descriptions, or images of certain merchandise in our catalog or sales material. Frankford reserves the right to restrict orders of those items.

**LIABILITY** - In no event will Frankford be liable to the Dealer for any lost profits, lost savings, or any consequential, incidental, or special damages arising out of or in connection with the parties' relationship, even if Frankford has been put on notice of the possibility of such damages. Without limitation to the foregoing, under no circumstances will Frankford be liable to the Dealer for punitive damages.

Frankford reserves the right to alter or modify designs, product styles, or product specifications and discontinue frames and fabrics to the entire range of manufactured and distributed products without prior notice.

**WIND DAMAGE** - Wind ratings do not form part of, nor fall under, any of Frankford Umbrellas' warranties. Wind ratings are intended as a guide to the relative strength of the umbrellas only and tested at their optimal positions. Umbrellas with any degree of tilt added should not follow any wind ratings on pg. 45. Wind can be extremely variable, depending on the surroundings, elevation, gusts, etc. In high wind or sudden extreme weather conditions, all umbrellas should be closed and secured immediately, regardless of size, weight, or base weight and never be left unattended or tilted in the open position.

Frankford will not be held responsible for damage to your umbrella, furniture, or property. Frankford Umbrellas' **2024 MSRP** and **Catalog** contain minimum recommendations for necessary weight, but this can vary depending on conditions.

**ELEVATED/ROOFTOP** - Warranties and published wind ratings do not apply to any umbrella on a rooftop or an elevated patio above the ground level of the property.

**10-YEAR FABRIC** - Frankford offers 9 oz. marine-grade solution-dyed acrylic fabric from several mills, including Sunbrella®, Outdura®, and RECASENS. All marine-grade acrylic fabrics we use carry a warranty of 10 years from the original date of purchase. All upholstery-grade fabrics we use carry a warranty of 5 years from the original date of purchase. The warranty protects against the significant loss of strength and color in normal atmospheric conditions. The product must be properly installed, maintained, and under normal use and environment. This warranty does not cover damage caused by contact with foreign objects, abuse, negligence, vandalism, burns of any kind, improper cleaning techniques, normal wear, perforations, weather soiling, environmental pollution stains, natural disasters, rot, mildew, or acts of nature. Damage caused by the storage method or location used by clients is not covered.

To ensure our products' longevity, we recommend closing your umbrella and securing it with a tie band in high winds. In addition, be sure the fabric is pulled away from the ribs as outlined below. High winds will cause the umbrella fabric to rub together, causing friction, which can result in premature thinning of the fabric, discoloration, and possible pinholes over extended use. We strongly suggest the use of a protective cover or safely storing the umbrella until the winds and harsh weather subside. Damage of this nature is not covered under warranty.

**When opening and closing the umbrella, the user must be sure all fabric is pulled away from the ribs to prevent unnecessary rubbing of the fabric against the frame or hardware. This could result in premature wearing or holes in the fabric. Damage of this nature is not covered under warranty.**

The warranty, if applicable, does not cover labor frames, systems, or installation supplied by the dealer or reseller. The replacement fabric canopy is covered for the time remaining in the original warranty and does not activate a new 10-year or 5-year warranty.

**5-YEAR FRAME** - Frankford warrants the crank and auto tilt mechanisms in the **MONTEREY** for a period of 5 years from the original date of purchase. This warranty includes manufacturer defects of crank handles, crank axles, auto tilts, push-button tilts, and para-cord. Frankford warrants the frame structure of the **ECLIPSE®, AURORA, NOVA, G-SERIES, GREENWICH, MONTEREY, CATALINA,** and **AVALON** for a period of 5 years from the original date of purchase. This warranty includes manufacturer defects to the notch, runner, center pole, and skeleton structure. This warranty does not include damages sustained to these umbrellas if operated improperly, while in any degree of tilt, or if left unattended.

**Before opening any umbrella, gently “fluff” the umbrella ribs (spread them apart by hand) first, and then begin to open the umbrella. If you feel any impingement whatsoever during opening, halt opening and repeat this process until there is no more resistance.**

**3-YEAR POWDER COAT/FINISH** - Frankford warrants all powder coat finishes on aluminum masts in **ECLIPSE®**, **AURORA**, **NOVA**, **G-SERIES**, **GREENWICH**, **MONTEREY**, **CATALINA**, and **LAUREL** for a period of 3 years from the original date of purchase. This warranty includes chipping, peeling, flaking, bubbling, and fading of the powder coat finish on the aluminum masts only.

**1-YEAR FRAME/STRUCTURE** - Frankford warrants the frame structure of the **LAUREL**, **EMERALD COAST**, **FC101**, **SHADE STAR**, **LIFEGUARD**, and **CB87** for a period of 1 year from the original date of purchase. This warranty includes manufacturer defects to the notch, runner, center pole, and skeleton structure. Frankford warrants all umbrella bases for a period of one 1 year from the original date of purchase.

**1-YEAR UMBRELLA BASE** - Frankford warranty covers manufacturing defects only. It does not cover breakage due to contact with foreign objects, chipping of the finishes, crumbling of concrete, or any damage associated with transporting the base.

**3-YEAR FIBERGLASS RIB REPLACEMENT** - In the event of damage that is not warrantable occurs to fiberglass ribs from the **MONTEREY** collection, Frankford offers a free replacement program for 3 years from the original date of purchase. Shipping charges are not included in this program.

**RUST** - is a natural part of the aging process for all steel and iron-based materials; therefore it is not considered a defect and is not covered under any of Frankford Umbrellas' warranties. Steel bases and mounts are designed to require minimum maintenance and should be kept clean and well maintained.

Galvanized steel will show unavoidable imperfections due to the finishing process and therefore, must be accepted in the condition in which it is received.

**SEASIDE AND INDOOR/OUTDOOR POOL USE** - Salt and chlorides can accumulate on the powder coat finishes and on raw material finishes, such as Brushed Silver (**MS**) (umbrella specific) and Platinum (**SR**), leading to premature finish failure.

Failure or neglect to make needed cleanings on powder coat finishes may cause paint to blister, flake, or bubble, and such failure will void limited warranty.

Failure to maintain umbrella and base finishes may cause aluminum and metals to pit, oxidize, or corrode. Such failure will void all warranties.

Frankford Umbrellas' warranties do not cover damage to any umbrellas or umbrella bases related to extreme weather, abuse, misuse, or any damage that occurs as a result of contact with the ground or any other foreign object due to sudden and severe weather events or other extreme acts of nature.

Frankford Umbrellas' warranties are only applicable to products that are properly secured to Frankford bases or anchoring systems equal to or greater than recommended by Frankford. Failure to properly secure Frankford Umbrellas to Frankford bases equal to or greater than recommended will void all warranties. If warrantable damage occurs, Frankford will refinish, replace, or repair any item in this category at its own discretion.

# COMMERCIAL WARRANTIES

As a condition of doing business with Frankford Umbrellas, all persons involved in the commercial purchase, sale, or resale of Frankford products shall be bound by the following terms and conditions.

**DISTRIBUTION** - Frankford reserves the right to respond to geographic and individual market and competitive situations by applying different policies to its various Dealers. Frankford Umbrellas’ warranties are only applicable to products that are properly secured to Frankford bases or anchoring systems equal to or greater than recommended by Frankford. Failure to properly secure Frankford Umbrellas to Frankford bases equal to or greater than recommended will void all warranties. If warrantable damage occurs, Frankford will refinish, replace, or repair any item in this category at its own discretion.

# SHIPPING / RETURNS

**GROUND / FREIGHT DELIVERIES** - Frankford would like to ensure the highest level of service. All of our products are made to order and shipped directly from us to you. Because of this, shipping times often vary depending on what product is ordered, what fabric is used (Grades **A** or **A+**, **B-F**), the quantity ordered, and the time of year the order is placed.

All small package and small quantity orders will be shipped using parcel companies (USPS, UPS, FedEx, or other) unless otherwise specified. Some of our larger items and larger quantity shipments must be shipped with an LTL trucking company. Additional charges may be incurred for the following services: Lift Gate Service, Residential Delivery, Call Before Delivery, Express Delivery, Weekend/Holiday Delivery, Guaranteed Delivery, Redelivery, or Change of Address.

Frankford will not be responsible for any express shipping costs or order cancellations unless we have guaranteed a specific delivery date in writing. No verbal guarantees will be honored. customer is responsible for additional charges added at the time of delivery (Inside Delivery, Lift Gate, Change of Address, etc.). **FREIGHT QUOTES ARE ONLY VALID FOR 14 DAYS.**

**SCHEDULING** - Deliveries may be disrupted by natural disasters and other factors beyond our control. In these cases, Frankford shall not be liable for any damages caused by a failure to deliver or delays in delivery.

Orders may be delayed due to lack of information on order form. Information includes, but is not limited to, shipping address, company/contact name, phone number, shipping method/instructions, item number/description. Frankford will not be responsible for charges incurred due to lack of information provided. For shipping quotes/inquiries, email a customer service representative.

**CANCELLATIONS** - No cancellations, changes, additions, or holds will be accepted on any order for which materials have been ordered or produced.

- Cancellations and/or changes of product or shipping dates on **EARLY BUY** orders must be received in writing within 15 days of the order date.
- Cancellations and/or changes of product or shipping dates on **ALL OTHER** orders must be received in writing within 1 business day of the order date.

**SHORTAGES** - It is the Dealer's/customer's responsibility to inspect all merchandise and to file a claim with the carrier in the event of product shortage. Make a notation on the Bill of Lading as to the number of cartons short. Frankford must also be notified within 24 hours of any shortages. File the claim with the delivery carrier immediately. No claim for shortages, damaged items, or errors will be honored unless it is made in writing on the Bill of Lading immediately upon receipt of shipment. Notwithstanding anything to the contrary in this agreement, failure to make a claim on the Bill of Lading will constitute a waiver of any right to a refund or credit.

In addition, it is the Dealer's/customer's responsibility to inspect all merchandise to ensure they have received the correct product, fabric colors and frame finishes. Any discrepancies must be reported in writing within 48 hours of receipt.

**CONCEALED DAMAGE** - If damage is discovered when unpacking the merchandise, immediately mark the damaged area and submit a written request for the carrier to inspect.

- Do not remove the merchandise from the original carton until the carrier inspection is complete.
- If the merchandise was shipped using Frankford's carrier and account, it is the Dealer's/customer's responsibility to notify Frankford immediately and to provide all proper documentation so that a claim can be filed.

**VISIBLE DAMAGE** - It's Dealer's/customer's responsibility to check the merchandise for visible damage and file a claim with the carrier if the shipment was made using the dealer's carrier account. Request a claim form from the delivering carrier and file your claim immediately.

- If the shipment was made using Frankford's carrier and account, it is the Dealer's/customer's responsibility to check the merchandise and notify Frankford Umbrellas within 24 hours of delivery so that a claim can be filed.
- In either situation, make a notation on the Bill of Lading as to the nature and extent of the damage, take photos, check carton count, and obtain a signature from the carrier's agent.
- Failure to provide this information within 24 hours of delivery may result in the carrier refusing to honor the claim, and Frankford will not, under this circumstance, be liable for damage sustained in transit.

## **PURCHASER/CLIENT TRANSIT AND INSTALLATION-**

Frankford is not responsible or liable for any damages that occur during transit to a customer's home or any location by the purchaser or third-party delivery services.

- Frankford is not responsible or liable for any damages incurred when the customer is transporting their product from the location of purchase to their home.
- Frankford is not responsible or liable for mechanical damages incurred during installation before the product is fully installed and operational.
- Frankford, under no circumstances, will be responsible for punitive damages to persons or property due to an improper or faulty installation.

**GRADE A RETURNS** - All requests for returns of stock merchandise must be made within 7 days of receipt of merchandise. Returns will not be accepted without a written Return Authorization (RA#) from the factory. It is the Dealer's/customer's responsibility to follow routing instructions. Please fax/email a request for an RA#. Your request must include the following information:

- Company name, contact name and number.
- The Frankford Umbrellas invoice and/or acknowledgment.
- The item number, number of units to be returned and carton total
- The reason for the return.
- Which carrier will be returning the items and the date of the shipment.

Any stock item that is returned for credit is subject to a 25% restocking fee (and must be properly packaged and in resalable condition) plus inbound and outbound freight charges.

PLEASE NOTE: **ECLIPSE®**, **AURORA**, **NOVA**, **G-SERIES**, and **GREENWICH** are considered custom orders. Returns will not be accepted.

**GRADE A+/B-F RETURNS** - Umbrellas made with Grade A+ through F fabrics and/or that have printing are not subject to a refund or credit. These items are manufactured or printed to the Dealer's/customer's specifications, and as such, may not be returned. No cancellations, changes, additions, or holds will be accepted on any order for which materials have been ordered or produced.

NOTE: **ECLIPSE®**, **AURORA**, **NOVA**, **G-SERIES**, and **GREENWICH** are considered custom orders. Returns will not be accepted.

# CARE AND MAINTENANCE

**FABRIC CARE** - Recacril® 9 oz. marine-grade acrylic fabric is treated with the Infinity Process, a highly technological finish providing Recacril® with long-lasting protection against mold and mildew, excellent water and oil repellency, and protection from the sun. However, the accumulation of dust, pollution particles, foreign organic materials, and general dirt can damage this protection, shortening the life of the Recacril®.

The most effective method for maintaining Recacril® is to clean the canvas once a month with water, using a low-pressure hose. It is very important that after cleaning with water, the canvas be allowed to completely dry before rolling or storing your umbrella. If for any reason you must roll and/or store a wet umbrella, it must be unrolled and opened as soon as possible to dry. In times of continuous rain, it is advisable to keep the umbrella rolled and stored.

If periodic washing with water is done, in most environments, you should only need to do a more thorough cleaning every 2-3 years.

Recacril® is highly resistant to the growth of fungus, mold, and mildew. However, these can grow on embedded dirt. To clean these stains, follow these more intensive cleaning procedures.

**FABRIC CRAZING/MARBLING** - Crazing is an inherent characteristic of all solution-dyed acrylic fabrics and is caused by folding or creasing of the fabric during production or installation.

- Crazing lines appear as white lines on dark-colored fabrics when frontlit, and dark lines on light-colored fabrics when backlit. The primary contributors to crazing are the resins added in the final stages of manufacturing. These resins add stiffness so the fabric lies flat during sewing, which is critical for the manufacturing process.
- These resins can be viewed as an industrial fabric starch with a specific end purpose. Crazing does not affect the performance or characteristics of RECASENS, Sunbrella®, Outdura®, or other acrylic fabrics. The fabric remains water repellent as well as stain and mildew resistant, and the lines will diminish over time with exposure to the elements.

## CASUAL CARE/CLEANING

- Brush off dust and dirt with a soft brush. NEVER brush with stiff brushes since this can damage the fabric finish.
- Spray the umbrella with clean water. If a hose is used, avoid high pressure.
- Prepare a solution of solvent-free soap in warm water (no more than 100°F) and apply it to the fabric and stitching.
- Scrub with a soft brush, allowing the solution to penetrate the fabric.
- Rinse with water to remove all traces of soap.
- Let air dry and do not close the umbrella until canvas is completely dry.

## INTENSIVE CARE/CLEANING

- Brush off dust and dirt with a soft brush. NEVER brush with stiff brushes as this can damage the fabric finish.
- Prepare a solution with 10% household bleach, 20% solvent-free neutral detergent (free & clear detergents), and 70% water.
- Apply the solution to the fabric, allowing it to remain between 15 and 20 minutes maximum.
- Rinse with clean water several times. Any bleach residues remaining on the canvas, combined with the sun, could damage the fabric and stitching.
- Let air dry and do not close the umbrella until canvas is completely dry.
- Repeat the process if necessary.

**BASE CARE** - Do not let dirt build up on the bases. Bases should be cleaned with mild soap and water. Seasonal touch-up of any scratches, chips, occasional rust seepage from crevices, or hidden or unfinished surfaces inherent in some designs is all that is required.

Never leave bases standing in water. To keep your bases looking their best, you may wish to store them when not in use for an extended period of time.

Finishes will vary slightly depending on the final process and raw materials on which they are applied.

**POWDER COATED STEEL BASE/STEM** - Upon receiving your powder coated steel base and/or mount, apply a rust inhibitor to the inside of the steel stem. The stems are powder coated steel; however, the inside of the stem lacks total coverage, exposing the raw steel and accelerating natural deterioration.

**PREVENTIVE MAINTENANCE PRO TIP:** Ferrous metals are naturally in the air and can adhere and etch in to any surface. These small particles can rust on the surface giving an unsightly look. To combat this, before setting up your base, rinse with clean, fresh water, towel dry or air dry, and apply WD-40 Specialist Long-Term Corrosion Inhibitor to the entirety of the base. Repeat this twice a year to ensure the longevity of your base.

Periodically hose powder coated steel bases, steel umbrella stems, and steel mounts with warm, fresh water and a mild detergent. This should be a part of a weekly routine to ensure the longevity of all steel products.

**VISUAL RUST** - If you notice rust stains, rinse the steel product with warm water and a mild detergent to determine its origin. Once the damaged area has been discovered, scrub off the visible rust using warm water, white vinegar, and a stainless steel wire brush (steel wire brushes will leave further iron deposits on the surface).

Once rust (orange oxidation) is visibly gone, apply a thin coat of Rust-Oleum® Stops Rust® Rust Inhibitor Spray to the affected area. Then apply the closest-matching Rust-Oleum® paint available at your local hardware store.

Rusty water stains may appear from rusting ferrous metal deposits on the surface, not the actual product. The most common place this would occur is from the umbrella stem/threads. Remove the stem and clean with warm, fresh water; white vinegar; and a soft sponge or brush. Dry off with a towel, apply WD-40 Specialist Long-Term Corrosion Inhibitor to the threads of the umbrella stem and female receiving cup of the stem.

**VINYL CARE** - The most effective method for maintaining Frankford's heavy-gauge vinyl is to clean the vinyl once a month with water, using a garden hose to prevent the accumulation of dust, pollution particles, foreign organic materials, and general dirt stains. For more embedded stains, brush the loose dirt away with a soft brush and rinse the vinyl with a garden hose. Use a vinyl cleaner, sponge, and lukewarm water to scrub away stubborn stains. Do not use dish detergent as this will dry out the vinyl and expedite the aging process of the vinyl material.

**CLEANING ABS PLASTICS** - Frankford uses electroplating on our plastic crank boxes for Brushed Silver (**MS**) and Platinum (**SR**) finishes. This is to protect the plastic parts from corrosion. The plating process will also increase the wear resistance and strength of the product. To clean these specific finishes, follow the methods below.

**TOOTHPASTE** - Removes light scuffs and cloudiness.

- Spread a thin layer of opaque white (no gel) toothpaste on the surface of the chrome plating. Rub the toothpaste with a soft, clean cloth in small circular and swirling patterns (little to no force).
- Using a fresh, dry cloth or microfiber, wipe away the toothpaste, revealing a shiny, clean surface.

**WHITE VINEGAR** - General Cleaning.

- Pour undiluted distilled white vinegar in to a spray bottle and begin to spray the surface until saturated.
- Using a fresh, dry cloth or microfiber, wipe while simultaneously buffing away the vinegar.

## **AURORA PREMIUM ALUMINUM CANTILEVER**

11ft. Octagonal Premium Aluminum Cantilever Umbrella / **MS** - Brushed Silver Anodized Finish

Recasens® R-099 White (**GRADE A**) 9oz. Marine Grade Acrylic Fabric

Mounting: **XB+C-SM** - Aurora Specific Modular Cross Base w/ Silver Mist Powder Coated Cover

868ARU-MS-R099

# SHADE DESIGNER

## ***ECLIPSE® DESIGNER CANTILEVER***

10ft. x 10ft. Square Designer Aluminum Cantilever Umbrella / **MS** - Brushed Silver Anodized Finish  
Recasens® R-099 White / Recasens® R-176 Logo Red 6" Trim" (**Grade A+**) 9oz. Marine Grade Acrylic Fabric  
Mounting: **40Gx3** - Triple Galvanized Steel Plate Stack
